

ANNOTATED FLOW WALKTHROUGH

How the AL RAWDA ERP Works

The app screens, marked step-by-step — focusing on creating receipts, multi-selecting them, requesting approval, and the manager approving the combined receipt.

The flow at a glance

A receipt travels from the counter staff to the manager. The numbered steps below are marked on the screens that follow.

Who does what

- 3** **Counter staff** create receipts against a customer's invoice (one receipt can cover several packages).
- 4** **Counter staff** tick the day's receipts in the list (multi-select) — the combined total is shown.
- 5** **Counter staff** press **Request approval** — the ticked receipts become one combined request sent to the manager.
- 6** **Manager** opens Receipt Approval and sees the combined request: all receipts grouped with one total.
- 7** **Manager** approves — the receipts lock and count as income (or rejects, sending them back to draft).

Screen A — Receipt (create + select + request)

Transaction → Activity → Receipt. This one area is where receipts are created and sent for approval.

Request approval 5

☐	Rec No	Customer	Packages	Mode	Amount	Status
☒	12750	Mohammad Jahirul Islam	Umrah ×5	Cash	QAR 5,000	Draft
☒	12751	Suman Meah	Umrah + Transport	Bank	QAR 1,400	Draft
☒	12752	Md Amdadullah	Umrah	Cash	QAR 600	Draft
☐	12753	Habib Ali	Only Transport	Cash	QAR 350	Draft

- 3 Create a receipt against the customer's invoice — balance and received amount captured here.
- 4 Tick the receipts to send (here 3 selected) — the system shows the **combined total QAR 6,950**.
- 5 Click **Request approval** — the 3 ticked receipts become one combined request and move to the Receipt Approval menu.

Screen B — Receipt Approval (manager sees the combined receipt)

Transaction → Activity → Receipt Approval. The manager reviews and approves the grouped request.

Receipt Approval — Manager

REQ-10026

Pending

Combined total
QAR 6,950

Rec No	Customer	Packages	Mode	Amount
12750	Mohammad Jahirul Islam	Umrah ×5	Cash	QAR 5,000
12751	Suman Meah	Umrah + Transport	Bank	QAR 1,400
12752	Md Amdadullah	Umrah	Cash	QAR 600
Combined receipt total				QAR 6,950

✖ Reject

✓ Approve request7

6

The request REQ-1002 shows all 3 receipts grouped into one combined receipt with a single total (QAR 6,950) — exactly the set the staff sent.

7

Approve request → every receipt in it locks to Approved and counts as income. Reject sends them back to Draft for correction. Only the manager can do this (separation of duties).

After approval — status & who's allowed

Once approved, receipts are locked and the dashboard request count clears. Permissions decide who can request vs approve.

Receipts — after approval

Rec No	Customer	Amount	Status
12750	Mohammad Jahirul Islam	QAR 5,000	Approved
12751	Suman Meah	QAR 1,400	Approved
12752	Md Amdadullah	QAR 600	Approved
12753	Habib Ali	QAR 350	Draft

Summary of the flow

- 3 Staff create receipts (multi-package allowed).
- 4 Staff multi-select the day's receipts.
- 5 Staff request approval → one combined request to the manager.
- 6 Manager sees the combined receipt (grouped, one total).
- 7 Manager approves → receipts locked, counted as income, dashboard request count clears.
